

• CASE STUDY • HERITAGE RECONSTRUCTION

Three towns. Three islands. **One system.**

• 01 • THE CHALLENGE

Where cars can't go.

Narrow alleys, pedestrian zones and three islands in Maó harbor: car-mounted mobile mapping can't reach them all.

• 02 • THE SOLUTION

Scanfly **EVO**

From car roof to backpack, no tools needed.
Then on by bike, on foot and by boat.

• 03 • THE RESULTS

<3days

in the field, boat transfers included

<10cm

accuracy against ground control points

3+3

towns and islands captured
